

*A Higher Quality*

HeatLink F1960 Potable Water Expansion System

## No Lead Brass Ball Valves

HeatLink uses high quality No Lead Brass for our F1960 ball valves for superior performance and reliability on all of your plumbing projects.

Features include:

- Full port for maximum flow
- Lead free brass for potable water compliance
- Resistance to de-zincification
- Corrosion resistance to chemicals found in water and gas
- High strength brass for long term reliability
- F1960 PEX connections for use with the HeatLink expansion system

Part #	Size
EX23305NL	1/2" PEX
